A	<p>Buttshock - ET-312 Schematics</p> <p>This project exists to reverse engineer the Erostek ET-312 Electrostimulation Device Firmware.</p> <p>The last update of the box firmware was 1.6 in 2004, and it still contains bugs and issues to this day.</p> <p>Seeing as this box has been around for 16 years now, there are probably hundreds of them around the world.</p>
